

Dear Student,

War Eagle! I'd like to personally thank you for taking an interest in Auburn University. Auburn is known for its tight-knit community and family values, and we'd like for you to be a part of that!

Your college years are the best time of your life, so why not make it all it can be? Here at Auburn we pride ourselves in a fun and friendly atmosphere that offers students only the finest resources.

Auburn is one of the largest universities in the South, offering degrees in 13 schools and colleges at the undergraduate, graduate, and professional levels. From the moment you enroll, Auburn will do everything it can to help you succeed. We have a variety of departments and staffs that will gladly meet your needs.

Auburn is also ranked in the top 50 public institutions in the nation for providing a quality education with educational value (US News & World Report) and has world-class faculty who regularly receive national awards and research grants for their instruction and research.

Being in a small-town college atmosphere proves to be beneficial to students here. With that comes tradition and spirit; not only from students but from the community as well! Pretty soon after starting at Auburn you'll find those family members you didn't even know you had!

Auburn is also incredibly affordable; compared to the cost, the degree and education which you will receive upon completion at the university is a steal! And you'll get to enjoy a beautiful and well-maintained campus at the same time.

The university's athletics are top notch. The facilities are high-quality and a new basketball arena is in the process of being built, to be finished later this year! And let's face it, nothing compares to the feeling of rolling Toomer's Corner with your closest friends and family members after a big win on the plains.

As you grow up and change, Auburn will always continue its tradition of excellence with its distinct qualities. Come be a part of our family and join us for priceless memories for years to come!
